The following is an examiner's statement of reasons for allowance: The rejections of record have been withdrawn for substantially the arguments put forth by applicants in the remarks of August 10, 2005. The following is added for emphasis only. As can be seen from the extensive prior art cited on this record, the area of toluene methylation employing varying catalysts and varying process conditions is very crowded. Although it might be known individually to employ a P-ZSM-5 catalyst, to employ a water cofeed or to steam the catalyst, there are other patents that teach not to steam a P-ZSM-5, not to use a water cofeed, or to introduce water only under certain conditions during regeneration. Accordingly, the prior art offers no specific motivation for use of both a non-steamed catalyst and selection of precisely the reaction steps employed by applicants to add water sufficient to provide little structural alumina loss from the catalyst due to such addition and the rejections have been overcome.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth D. Wood whose telephone number is 571-272-1377. The examiner can normally be reached on M-F, 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
